Notice Of Applications Received For State Permits

September 1, 2010

The Water Management Administration has received the applications listed below. A preliminary review has indicated that the listed projects may be subject to the opportunity for a public hearing once the application is substantially complete. Projects may be significantly altered during the review process. The applications and related information are available for inspection and copying. You may also request written notice of any hearing opportunity by having your name placed on the interested persons list for each project in which you are interested. To inspect the file or to have your name placed on the interested persons list, contact the assigned division at the telephone number indicated below no later than October 1, 2010.

WATER SUPPLY PROGRAM - (410)537-3590

CAROLINE COUNTY

201080065/CO2010G011/01: WILLIAM THOMAS JR. has applied to appropriate and use an annual average of 157,000 gallons of groundwater per day (gpd) and 690,000 gpd during the month of maximum use. The water will be withdrawn from one well in the Piney Point aquifer and will be used for crop irrigation. The project is located at 23211 Hog Creek Road, on the south side of Hog Creek Road. Preston, Caroline County, Maryland.

DORCHESTER COUNTY

199182723/DO1991G016/03: WILLIS J. ROBINSON has applied to increase an existing Water Appropriation and Use permit from an annual average of 42,000 gallons of ground water per day (gpd) and 252,000 gpd during the month of maximum use to an annual average of 91,000 gpd and 553,000 gpd during the month of maximum use. The water will be withdrawn from one existing well in the Columbia aquifer and will be used for crop irrigation at the Ellis farm. The project is located on the southwest corner of the intersection of RT-313 and Contrary Road, east of Eldorado, Dorchester County, Maryland.

201080069/DO2010G006/01: RICHFIELD FARMS, LLC has applied to appropriate and use an annual average of 370,000 gallons of water per day (gpd) and 528,000 gpd during the month of maximum use. The water will be withdrawn from a sump in a sand and gravel mine to facilitate the mining process. The project is located on the northeast side of Shiloh Camp Road, south of Osborne Road, Hurlock, Dorchester County, Maryland.

201080070/DO2010G007/01: WILLIAM O'DAY has applied to appropriate

and use an annual average of 105,000 gallons of ground water per day (gpd) and 637,000 gpd during the month of maximum use. The water will be withdrawn from one well in the Columbia aquifer and will be used for crop irrigation. The project is located at 6240 Eldorado-Federalburg Road, 5.5 miles north east of Rhodesdale, Dorchester County, Maryland.

MONTGOMERY COUNTY

201080077/MO2010G004/01: KENWOOD GOLF & COUNTRY CLUB has applied to appropriate and use an annual average of 39,300 gallons of ground water per day (gpd) and 177,000 gpd during the month of maximum use for golf course irrigation. The water is to be taken from two wells in the Georgetown Mafic Complex. The project is located at 5601 River Road, Bethesda, Montgomery County, Maryland.

WORCESTER COUNTY

201080078/WO2010G006/01: JIMMY HOLLAND has applied to appropriate and use an average of 66,200 gallons of ground water per day (gpd), and an average of 403,000 gpd in the month of maximum use. The water will be withdrawn from two wells in the Columbia aquifer and will be used for crop irrigation. The project is located at 2125 Snow Hill Road, Stockton, Worcester County, Maryland.
